

P21778.A01

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant : Naohiko NOGUCHI et al.

Serial No : Not Yet Assigned

Filed : Concurrently Herewith

For : FILE MANAGEMENT METHOD, CONTENT RECORDING/PLAYBACK
APPARATUS AND CONTENT RECORDING PROGRAM

PRELIMINARY AMENDMENT

Commissioner of Patents and Trademarks
Washington, D.C. 20231

Sir:

Prior to calculation of the filing fees and the examination of the above-identified patent application on the merits, the Examiner is respectfully requested to amend the claims as follows:

IN THE CLAIMS

Please amend claims 16 and 18 as follows (a marked-up copy of the claim amendments is provided as an attachment to this Amendment):

16. (Amended-Clean Text) The content playback apparatus according to claim 15 that, when content is distributed in package units in which related content is collected, using the metadata correspondence management file containing correspondence between an identifier of said package and an identifier of a metadata file corresponding thereto, acquires a metadata file corresponding to said package.

P21778.A01

18. (Amended-Clean Copy) The content playback apparatus according to claim 17 that, when content is distributed in package units in which related content is collected, using the metadata correspondence management file containing correspondence between an identifier of said package and an identifier of a metadata file corresponding thereto, acquires a metadata file corresponding to said package.

REMARKS

By the above amendment, claims 16 and 18 have been amended to delete multiple dependency.

If there should be any questions, the Examiner is invited to contact the undersigned at the telephone number listed below.

Respectfully submitted,
Naohiko NOGUCHI et al.

MARKED-UP COPY OF AMENDED CLAIMS

16. (Amended) The content playback apparatus according to claim 15 that, when content is distributed in package units in which related content is collected, using the metadata correspondence management file [according to claim 1] containing correspondence between an identifier of said package and an identifier of a metadata file corresponding thereto, acquires a metadata file corresponding to said package.

18. (Amended) The content playback apparatus according to claim 17 that, when content is distributed in package units in which related content is collected, using the metadata correspondence management file [according to claim 1] containing correspondence between an identifier of said package and an identifier of a metadata file corresponding thereto, acquires a metadata file corresponding to said package.
